Search and read the full text of patents from around the world with Google Patents, and find prior art in our Non-Patent Literature Index. Google Patents searches for patents and publications in patents on the websites of patent offices and international organizations. You can search by field of science, inventor's name, country of incorporation, and other criteria. To search by field of science, enter one or more keywords that begin with your chosen keyword. For example, type "photography" and Google will find photography-related patents. To search by inventor's name, enter the inventor's name.
