**Tabbles Crack (LifeTime) Activation Code (Updated  
2022)**

[Download](#)

Tabbles is a software that enables you to assign simple tags to any file or folder on your drives or Cloud storage space, in order to organize them into categories, without having to copy them to multiple locations. Features: Tabbles is a software that enables you to assign simple tags to any file or folder on your drives or Cloud storage space, in order to organize them into categories, without having to copy them to

---

multiple locations. • Simple and easy to use interface • When organizing your files, you need a clear, unobstructed overview of your drives or directories. • Even though the drives and folders cannot be viewed collapsed, with their subfolders, you can easily explore each directory and get to the files you need to tag. • The Search function is also an important aid for finding files that need to be tagged, moved to different Tabbles categories or untagged. • Customizable tags • When

---

you create a new tag, also called tabbles by the developers of the software, you can choose the appropriate color and name you want the tag to have. • These tags can be names, project titles, events, dates, types of files and many more, giving you a large variety of options to organize your files into. • If a file or folder belongs to more than a category, it is not a problem with Tabbles. You can assign more than one tag to a specific file. • And of course, when a file is not needed in a

---

certain category, it is easy to remove the association with that particular section. • Automate your work with auto-tagging • The auto-tagging feature enables you to create specific rules and conditions that, when met by files or folders, Tabbles will automatically tag these, assigning them to the specified category. • You can share these tagged folders with other users on the same network or on Cloud storage services. • Tabbles will display notifications each time a file

---

that falls under an auto-tagging rule has been created or found, so you can decide if you want to mark it.

1. How to install Tabbles on the desktop (win/mac)
2. How to install Tabbles on a laptop (win/mac)
3. How to install Tabbles on the cloud (Google Drive/Dropbox/Amazon)
4. How to install Tabbles on the NAS (Network Attached Storage)

**Tabbles Latest**

---

Tabbles videos: SUMMARY:  
Tabbles is an original concept and quite useful application for managing your files and folders, to organize them without having to move or copy them in multiple locations on your drives. Simple and easy to use interface When organizing your files, you need a clear, unobstructed overview of your drives or directories. Even though the drives and folders cannot be viewed collapsed, with their subfolders, you can easily explore each directory

---

and get to the files you need to tag. The Search function is also an important aid for finding files that need to be tagged, moved to different Tabbles categories or untagged.

**Customizable tags** When you create a new tag, also called tabbles by the developers of the software, you can choose the appropriate color and name you want the tag to have. These tags can be names, project titles, events, dates, types of files and many more, giving you a large variety of options to organize

---

your files into. If a file or folder belongs to more than a category, it is not a problem with Tabbles. You can assign more than one tag to a specific file. And of course, when a file is not needed in a certain category, it is easy to remove the association with that particular section. Automate your work with auto-tagging. The auto-tagging feature enables you to create specific rules and conditions that, when met by files or folders, Tabbles will automatically tag these,

---

assigning them to the specified category. You can share these tagged folders with other users on the same network or on Cloud storage services. **Tabbles Video Guide Tabbles Review: Simple and easy to use interface**

Description: Tabbles is an original concept and quite useful application for managing your files and folders, to organize them without having to move or copy them in multiple locations on your drives. Simple and easy to use interface When organizing your files, you need

---

a clear, unobstructed overview of your drives or directories. Even though the drives and folders cannot be viewed collapsed, with their subfolders, you can easily explore each directory and get to the files you need to tag. The Search function is also an important aid for finding files that need to be tagged, moved to different Tabbles categories or untagged. Customizable tags When you create a new tag, also called tabbles by the developers of the software, you can choose the

---

appropriate color and name you want the tag to have. These tags

**What's New in the?**

Tabbles is a cross-platform application that allows you to tag files and folders to quickly navigate files and folders on your drives or your Cloud space. With Tabbles, you can assign simple tags to files and folders, to easily navigate them. Choose the name of the tag, the color and the category you want to place these files and folders

---

in. When you create a new tag, it will be shown in a colored box. The empty label allows you to specify a name for it and the label is attached when you save the tag. If a file or folder belongs to more than one category, it is not a problem. Tabbles will create multiple tags for it in order to keep them in different categories. Tabbles Features: Easy to use interface: Even though the drives and folders cannot be viewed collapsed, with their subfolders, you can easily explore each

---

directory and get to the files you need to tag. The Search function is also an important aid for finding files that need to be tagged, moved to different Tabbles categories or untagged.

**Customizable tags:** When you create a new tag, you can choose the appropriate color and name you want the tag to have. These tags can be names, project titles, events, dates, types of files and many more, giving you a large variety of options to organize your files into. If a file or folder belongs

---

to more than a category, it is not a problem with Tabbles. You can assign more than one tag to a specific file. And of course, when a file is not needed in a certain category, it is easy to remove the association with that particular section. Automate your work with auto-tagging: The auto-tagging feature enables you to create specific rules and conditions that, when met by files or folders, Tabbles will automatically tag these, assigning them to the specified

---

category. You can share these tagged folders with other users on the same network or on Cloud storage services.

**Conclusion:** Tabbles is an innovative software that enables you to assign simple tags to any file or folder on your drives or your Cloud space, in order to organize them into categories, without having to copy them to multiple locations. Tabbles

**Description:** Tabbles is a cross-platform application that allows you to tag files and folders to quickly navigate files and

---

folders on your drives or your  
Cloud space. With Tabb
