MiniTask is a fast and easy-to-use task management application that helps you with organising your daily todos more efficiently. MiniTask supports features like drag 'n' drop reorder, alarm timers, printing of pretty task sheets, copying tasks from and to other applications etc. You can read, write and edit todo items from anywhere. The application offers easy and integrated support for a few of the leading productivity apps, so that you can effortlessly assign and launch tasks from within these apps. The app also has some basic features that can come in handy, e.g. to save your current working state and restore it later, or to open a new task file from a different location. The interface has a clean and minimalist look, and the icons fit well together. MiniTask is a fast, lightweight and stable piece of software that looks like a super-fast and easy to use todo manager. The free version of the tool does not include any bells or whistles, and its installation does not require any registration. Unfortunately, some users are not happy with this option, and they tend to demand some additional options that the app lacks. Although the basic structure of the app has some limitations, there are some powerful functionalities that will bring you some value. It is highly advisable to download a trial version and see how it works. Aurifilsoft Player is a media player application that can play most video files, as well as audio files, recorded programs, screencasts and games, etc. in XP, Win Vista, Win 7, 8 and Mac OS X. The player has a simple and easy-to-use interface, which is clean and uncluttered. Most of the features are located on the top toolbar. Because the application is optimized to be a video player, you do not have to worry that it would take up too much space on your desktop. The interface contains a simple interface, which has been designed for easy and convenient use. It features a small and subtle menu bar on top that contains a variety of relevant tools, including playback, fast forward, rewind, volume, full screen, pause, play, stop and FFM (fast forward and rewind). The player supports a range of video and audio formats such as MP3, WAV, ASF, OGG, AVI, MOV, WMA, RM, MP4, MOV, MPG, MP4, RM, MPEG, FLV, MKV, AAC, WEBM
