You can freely combine them to develop your character according to your play style, such as increasing your muscle strength to become a strong warrior, or mastering magic. * An Evolving, Multilayered Online Environment In addition to multiplayer, where you can directly connect with other players and travel together, the game supports a unique asynchronous online element that allows you to feel the presence of others. * Unique online play that loosely connects to others Unlock your own plane, and join your friends on the same plane through a unique asynchronous online play that allows you to feel the presence of others. * Encounter Monsters in a 3D Environment The monster action is intense and realistic. As you play, you will be surrounded by many dangers, and you can be easily frightened by monsters. * A Deep, Unique RPG System A unique RPG system that places a lot of emphasis on a

Features Key:

New fantasy MMO gameplay enhanced by new functions

- **Massively changing map** Mid-boss and General map appears on the field, which is continuously expanding. Areas of the mass change positions every time you enter. This is a constantly changing map, where you cannot be bored of the repeated missions.
- **Massively increasing the number of things to play** In the video footage previously, you saw only part of the story, but if you actually play the game, even a story based on part of the game can be played. As you continue to play, your own story is connected to stories other players are playing, and new events arise.
- **Infinite size** The game can be played without end in the limitless fields and valleys that are

generated every time you enter, as the map continues to expand. This map remains seamlessly connected, and players can explore and experience the story as their own fantasy. This is a game that you can continue playing with no end.

- **World-class visuals** Our graphics are based on the most advanced hi-performance graphics, and the game contains a multitude of three-dimensional graphics not previously available in the field of MMO games. Players are transported to a new and realistic world.
- **A highly collaborative class change system** Compared to the previous closed class features, the class change system has been completely redesigned and improved, allowing for the creation of strong, powerful, and noble characters in a quick and efficient manner, and for "quick class change".
- **Change characters freely among your heroes** You can freely switch between characters without restriction, allowing for the creation of a hero that is appropriate to your play style and for continuous exploration.

Irreverent cut-scenes with Comedy and Minigames On the lower right corner of the screen, you can view the story, and at appropriate times, the drama will be cut and play out in a comedic manner. Maps with Nintendo, sexy girls, or various minigames will randomly appear before and after the cut-scenes.
