Its the Ultimate Soccer Simulator. Play against friends, the AI, challenge the world. Kick the world off, and do it all again. FIFA is the definitive control of football through digital media. Build your dream side in the editors. Play new seasons, tournaments, and create and share custom games. FIFA is a legendary franchise for a reason. Why? Because this is football and FIFA does it right. FIFA is all about playing the beautiful game, but you have to be a FIFA pro to win, so start your journey today and get your ball rolling. What's New in FIFA 20? This is the biggest and best FIFA yet. And while it's no easy task to even attempt to re-invent the wheel and make FIFA even better, we're darn close. Over 70 improvements have made their way from simulation to gameplay. Enhanced Player Movements In FIFA, the universe is a densely populated place. You can't run all over the pitch at once, but you can start advancing towards the pitch. With enhanced physics and more motion, you can now be more spontaneous on the pitch. And if you need extra range, apply a quick pass to see your dribbler

blast off in a sprint. As your player develops, your understanding of the flow of a match changes, and now you can apply cutting moves more often. With the new physics system, you're more control over what you want to happen on the pitch, as the movements of your player have more impact. Deeper Passes As your player develops, you'll see him start to use passing a little deeper. With the new physics system, you're more control over what you want to happen on the pitch, as the movements of your player have more impact. AI Over 80 million steps. That's how many moves the AI makes every second in FIFA, to ensure the best accuracy of your tactics. In the new game, use the detailed manual control to hold the ball longer and get to the opposition's penalty area quicker. With feedback from your opponent, it's now easier to tell if you've hit your target. Never step out of the play for a return pass, because the AI will be aware. And the massive number of AI players allows you to play against a massive 16-on-16 opponent. bc9d6d6daa
