"We were impressed by the feedback we've received for the FIFA competitions on Xbox platforms and the massive engagement seen in the FIFA World Cup qualifiers that attracted an average of 7.5 million concurrent viewers across devices," said John Schappelle, Executive Producer at EA SPORTS. "The next FIFA is the most authentic, dynamic and fast-paced football simulation ever and we're bringing that to console for the first time with the introduction of HyperMotion Technology." FIFA 22 will be available in stores and on Xbox Game Store on October 2. A NEW WAY TO PLAY FIFA's technical, innovative engineering team spent time observing real football matches to capture the high intensity, fast-paced action, complex passing and close-quarter battles in all its glory. Over 1,000 player actions were captured across 100 players in 52 actual high-intensity football matches. HyperMotion Technology lets you see and feel football the way the players do, with its real-time, in-game physics and authentic team movements, giving you a realistic football experience like no other. A NEW PRESENCE OF DRAMA FIFA is all about drama. The leading stars of soccer, some of the greatest rivals in the sport, interact in a dramatic and meaningful way. Intense dribbling sequences and cat-and-mouse exchanges between strikers, midfielders and defenders leave their marks in the game to create an unforgettable atmosphere. From the famous referees to the thousands of talented, independent players and club teams, the competition and its characters will keep you gripped and entertained. ENGINE FEATURES FIFA 22 features: Massive Ultimate Team overhaul for the most authentic experience yet. FIFA Ultimate Team Game Director Mode. FIFA Ultimate Team Exotic Player Rewards. New free-kicks systems - toe-pads, hip-pads, and curling crosses. New ball models, allowing for more direct ball control. More intelligent movement and handling. New goalkeeping system, with more accurate ball tracking. Improved collision and AI conditions. New running animation system and new animations for defenders. Increased durability of players and players' clothing, with new upgrades for authentic feel. New transitions, new saves and saves change with camera angle

**WHAT'S NEW** Gameplay New Attacking Styles Now it's your turn to create shots like the pros. With new attacking moves and styles that react to your playing style and tactics, you can now create your perfect shot. Create your move, choose your target and frame the shot. From the perfect block to the trademark finish, you have a new arsenal of tools to find and create all new ways to pull off spectacular moves. New Skill Move Mechanics The foundation for the new attacking style is a new suite of mechanics that react to your play style and change in motion. Aggressive close-control players will feel more comfortable with their new skill moves. Subtle dribblers will find success with the new skill moves as will top playmakers. New mechanics allow for added dynamism, which will allow players to exploit their opponents in new and unexpected ways. Smart Player AI Quick feet with good decision-making means better use of space. Players will exhibit different behaviors based on their physical attributes, whereas before the AI used situational scripts. The AI will kick and run more intelligently, whereas before they typically used a playbook that didn't respond to the situation. The AI will read the way you set up your pass and maintain possession better, improve movement, and make decision-making calls like who to pass to. Goalkeeper Customisation Goalkeepers have the most adaptive game in FIFA. They use the biggest field of view, and have the best decision-making. The keeper's constant awareness makes him an important and vital piece of the game. The more you do as a keeper, the smarter the goalkeeper will be. New Ball Physics Progression of the new ball physics throughout the season means more unpredictable bounces and contact. In addition to the new ball physics, it will be hotter than ever, reflecting the intense competition at the beginning of the season. On-Field Experience Players are more comfortable with the ball, creating a more comfortable experience on the pitch. New animations add to the physicality on the pitch. Every pose and motion will be impacted by the new ball physics. Motion Kit A new motion package is available, allowing for eight different looks per player. For the first time ever, every player has multiple motion sets. All these motion types will be available from the off-the-ball. For example, pre-match routines like a last touch, 3-man football move, bc9d6d6daa

FUT is back, bigger and better than ever before. With the introduction of FUT Draft, where you get to create your dream team from over 700 of the best footballers in the world, FUT is now the deepest and most intense way to enjoy playing and developing your Ultimate Team - a community-driven, content-rich experience where everything is playable and learnable. FIFA Ultimate Team Draft - Whether you love watching your favorite player in the World Cup, watching the superstars of the Premiership take to the field, or you just want to show off your skills on FIFA Ultimate Team, this mode lets you experience playing with more than 700 of the world's greatest footballers and build the ultimate fantasy squad from scratch. Build your squad with a set of three cards that offer players with attributes, skills and traits that are key to unlocking the hidden qualities of each player. Then, collect packs in the same way you would collect coins, coins or coins. Once you have enough packs, you can open packs to earn coins to buy more cards and search for FIFA players from around the world to further customize your squad. The mode features hundreds of packs to unlock and play with, an innovative scoring system that helps you understand what attributes are key to achieving a win, and the ability to download cards from other players in the game in order to further customize your squad. FIFA Ultimate Team Challenges - After a long day of work, your boss tells you that you need to go and watch England play in the World Cup. You need to push your limits and get the best
