Physiotherapists work with the coaching staff to ensure a player's game is prepared to withstand the physical demands of the game and the various challenges they will face.

Physiotherapists use the official match simulation in FIFA Ultimate Team to educate the player on the challenges and risks they are likely to encounter throughout the game. These lead to optimal recovery strategy before every game, which is critical to their preparation. Physiotherapists work closely with the coaching staff to create a set of unique, bespoke recovery plans that are

while in the tackle. Multiple match modes now provide more ways to play. New multiplayer features include the ability to create Private Matches, Online Leagues, and a new Private Match Play Mode. Users can now create and manage private matches, and invite friends to play in them. Players can enter custom leagues or create their own Leagues in matches. For the first time in FIFA history, the new season-based Leagues allow users to create individual leagues that reflect current real-world leagues. The game will automatically determine the season of the league, with two new features that allow users to create fictional leagues such as Summer, Fall, Spring, and Winter Leagues. The Seasons feature also includes the ability
