Kangana Ranaut, the struggling singer and former model, who is bound by a contract that demands her to be in a relationship with Yash's (Anupam Kher) best friend,.Tumor-associated mucin in human malignant peripheral nerve sheath tumors. In several human malignant tumor-derived cell lines, specific expression of an intact mucin is associated with the malignant phenotype. These mucins are heterogeneous in their structure and, with some exceptions, lack the carbohydrate groups normally associated with mucins. Tumor-associated mucin (TAM) is found in greater than 90% of malignant nerve sheath tumors, where it may be an integral component of the tumor cell membrane or be shed into the matrix. We have examined human malignant peripheral nerve sheath tumors by both histochemical and immunochemical techniques and found that intact TAM is a useful marker in separating these malignant nerve sheath tumors from benign tumors. The data presented indicate that intact TAM may be used as a prognostic indicator for malignant peripheral nerve sheath tumors. It is suggested that the mucin associated with malignant nerve sheath tumors may be derived from Schwann cells and not ependymal cells.Intraoperative diagnosis of thyroid neoplasm by a novel classifier. The determination of the thyroid nodule malignancy is an important clinical goal for early diagnosis and treatment. We assessed a novel method for the diagnosis of papillary and follicular thyroid carcinoma using dynamic contrast-enhanced ultrasound (DCE-US) and machine learning techniques.
