## Download Adobe Photoshop Latest Version Highly Compressed [Win/Mac]

Q: Setting all selected rows in datatable to active I have a data table that contains a checkbox column. I am using datatables and have managed to get the checkboxes to change to a checked/unchecked state as required. The rest of the table however has the default blue colour but if i click on one of the blue rows it will no longer be blue and clicking other rows will no longer change the active state on the checkbox. Can anyone suggest a fix? My code is below: `var oTable = $('#myDataTable').dataTable({ "jQueryUI": true, "sDom": 't', "oLanguage": { "sSearch": "", " " "fnDrawCallback": function () { // Apply the class only if the row is active $('ac-chk-btn').prop('disabled',!this.row('row-active').nTr.hasClass('row-selected')).closest('tr').addClass('row-selected'); }, "aaSorting": [[ 0, "asc" ]], "bFilter": true, "iDisplayLength": 15, "bAutoWidth": false, "bSort": false, "bSortCssClass": false, "jQueryUI": true, "aoColumns": [`

### What's New in the?

Q: Is it possible to check if a promise was rejected before setting it to resolve? I am trying to refactor the following code:

```
private getTestCase(): Promise { let self = this; let id = getState().state.id; let url = this.getApiBaseUrl() +
"/TestCases/GetById/" + id; return this.callApi(url, () => { self.setState({ isLoading: false, error: null }); }) .catch((error) => {
self.setState({ isLoading: false, error: error }); }) .then((data) => { return self.getTestCaseFromData(data); }); } private
getTestCaseFromData(data: TestCaseDTO): Promise { let self = this; let id = data.id; let name = data.name; let url =
this.getApiBaseUrl() + "/TestCases/GetById/" + id; return this.callApi(url, () => { self.setState({ isLoading: false, error: null });
}) .catch((error) => { self.setState({ isLoading: false, error: error }); })
```

---
