It is said that it consists of unknown islands, strange creatures, hidden secrets, and treasures that can be brought forth from the dead. • As for the Elden Ring, it is a power that is passed down from generation to generation, that expresses the most important parts of the history of mankind. However, for over a hundred years it has been withered, and it is only those who have been tainted by the corruptive influence of the Elden Ring who are aware of its existence. • Until now, the Elden Ring has been in the possession of the current King Farsal, who has been ruling the Lands Between for nearly a thousand years. However, he has turned the power of the ring to his own selfish desires, and has warped the power of the ring to the power of corruption. • The current King Farsal makes people who have been tainted by the influence of the ring obey his command, and gets his own desires fulfilled, and the Lands Between becomes a place where the dark arts and twisted desires reign over everyone. • As the power of the corruptive influence of the ring expands, Farsal's influence gradually becomes common. Those who become corrupted themselves gradually get corrupted. The number of those tainted by the corruptive influence of the ring increases. A Tarnished Fate 1. ELDEN RING The power of the Elden Ring is the source of a power that can change history. It is not a power that will simply compel other living beings, and it has the potential to change other worlds. People who have been corrupted by the influence of the Elden Ring wield the power of the Elden Ring to make others do their bidding. Those who take up the Elden Ring become ELDEN.

Schools, and universities are becoming more and more obsolete these days, and students lack the ability to receive a quality education because of that. I decided to start a project that will help people earn an education, and to give them an alternative, a better option, so that they don't have to go to schools and universities that are currently failing students. While the intended audience for this project are the people from developing nations, I can see this project being useful for everyone. I was inspired by my uncle, who uses the concept of a university to provide him with an education, and was frustrated by the shoddy

conditions in which he has to study. I decided to embark on this project, to help anyone who wants to learn or earn a quality education. **FULLSCALE ASSIGNMENT**
