Gives you the most accurate truck routing even in unfamiliar areas. Based on over 100 million geo-located truck routes from the Mapfactor offline map database. You can also choose to view

the map in 2D/3D mode. With the built-in voice-guided navigation, you can easily find your destination on the road ahead. The voice-guided truck navigation works in English and Spanish and Brazilian Portuguese, in addition to the standard voice. Learn more about the truck navigation function in our Truck Navigation Help screen. Remember that the voice can be interrupted by no answer, dead zone, and requires a good phone connection. Narrow roads, low bridges, no opportunities for U-turns many roads are not truck friendly. That's why you need a professional truck navigation. Sygic Truck & Caravan GPS Navigation is a guarantee of Compliance, Efficiency & Safety. Closed-road areas (including many mountain passes) can significantly decrease the accuracy of GPS-based truck navigation. Although they might not influence the result for the last part of the route, you should still correct for the route before starting to navigate. Latitude and longitude can be freely assigned to the area. On the other hand, you can also correct for longitude deviation by entering an offset value for each specific point in the route. In this case, latitude/longitude values are irrelevant.
