To do this, you need to locate the serial number that appears on the bottom of the Adobe Photoshop Elements installation window. This is the serial number that you need to enter into the Adobe Photoshop software to activate the software. Alternatively, you can use the serial number that was generated by the keygen program that you previously downloaded. Once you have the serial number, you need to go to the Adobe website and open the crack file. Then, follow the on-screen instructions to obtain the serial number.
